Special Issues

Role of Oxygenates in Gasoline .. January 8
Forecast and Review ..... January 29
Worldwide Pipeline Construction Report ..... February 5
Capital Spending Outlook ..... February 26
Practical Drilling Technology ..... March 11
Refining Report ..... March 18
Russia's Petroleum Progress ..... March 25
Anatomy Of A Legislative Victory ..... April 1
Worldwide Construction Report ..... April 8
EOR Survey and Analysis ..... April 15
OGJ's 3-Year Forecast ..... April 22
Remote Medicine ..... April 29
Offshore Petroleum Operations .. May 6
Petrochemical Report ..... May 13
Integrating Earth Science & Technology ..... May 20
Opportunities In The Middle East ..... May 27
India's Emerging Development ..... June 10
Worldwide Gas Processing Report ..... July 1
Colombia's Oil & Gas Future ..... July 15
Midyear Forecast ..... July 29
Natural Gas and Electricity ..... August 12
Offshore Northern Europe Report ..... August 19
Japan's Evolving Downstream .... August 26
OGJ 200 Report ..... September 2
Annual Pipeline Report ..... September 9
Drilling Report ..... September 23
Worldwide Construction Update ..... September 30
Annual Production Report ..... October 7
Worldwide Catalyst Report ..... October 14
Applied Geophysics ..... October 28
Managing Oil and Gas Companies—I ..... November 4
Managing Oil and Gas Companies—II ..... November 11
Pipeline Economics ..... November 25
Refinery Technology Trends ..... December 9
Worldwide Refining Report ..... December 23
Worldwide Production Report ..... December 30

Annual Index—1996

EXPLORATION

	Date	Page
COMPUTER, Programs		
Managing overseas E&P in the age of the Internet—Steven M. Tobias	3-4	75
COST		
Geophysics points way for New York search—Alan Petzet	3-11	43
Sizing up well costs in popular depth ranges	3-11	103
FORECASTS, TRENDS, STATISTICS, SURVEYS		
UNCONVENTIONAL GAS—2: Technology spurs growth of U.S. coalbed methane—Scott H. Stevens, Jason A. Kuuskraa, and Richard A. Schraufnagel	1-1	56
Salomon Bros. lists gain in E&P budgets for 1996	1-15	28
UNCONVENTIONAL GAS—3: New basins invigorate U.S. gas shales play—Scott R. Reeves, Vello A. Kuuskraa, and David G. Hill	1-22	53
API monthly U.S. well completions	1-29	108
API monthly U.S. well completions	2-26	73
U.S. independent operators step up exploration, development abroad—A. D. Koen	3-4	31
Exploratory, horizontal wells pressed average depth in '94	3-11	102
UNCONVENTIONAL GAS—4: Tight sands gain as U.S. gas source—Vello A. Kuuskraa, Tom E. Hoak, Jason A. Kuuskraa, and John Hansen	3-18	102
Ohio 1995 oil and gas activity and exploration highlights—Michael P. McCormac and Mark E. Wolfe	4-15	77
Anatomy of success in oil and gas exploration in Pakistan, 1915-94—Viqar-un-Nisa Quadri and S. M. G. J. Quadri	5-13	92
API January well completions	5-20	91
API February well completions	5-27	74
ALASKA'S E&P OUTLOOK—1: Cooperative spirit paves way for Alaskan E&P operations	6-10	71
API March U.S. well completions	7-1	134
ALASKA'S E&P OUTLOOK—3: Royalty relief, leasing, exploration may help maintain Cook Inlet production	7-1	135
J.S. Herold: North American E&P back on track	7-15	24
API May U.S. well completions	7-15	74
MIDYEAR FORECAST. U.S. worldwide drilling activity to increase this year—Robert J. Beck and G. Alan Petzet	7-29	78
Petroconsultants: exploration poor in 1995	9-2	33
U.K. independents accelerate global exploration campaigns—David Knott	9-23	29
U.K. independents try new approaches in expanded worldwide exploration push—David Knott	9-30	36
API June U.S. well completions	10-14	91
API July U.S. well completions	10-21	63
API August U.S. well completions	10-28	91
Long life seen for giant Wilmington oil field	11-25	81
API September U.S. well completions	11-25	82
GEOLOGY		
Energy short Ukraine lists opportunities in three basins—Merle Grabhorn	1-8	63
N. Tunisian Sahara hosts giant Triassic, L. Paleozoic prospects—Fabrizio Rigo	1-15	52
Geology of marine evaporites favorable for oil, gas exploration—Saleh M. Billo	2-5	69
New oil source rocks cut in Greek Ionian basin—Vassilis Karakitsios and Nickos Rigakis	2-12	56
Cambrian potential indicated in Kentucky Rome trough—David C. Harris and James A. Drahovzal	2-19	52
Italy to open Po Valley to competitive exploration—Marco Pieri	3-11	99
Reefal petroleum prospects possible in Pakistan—Viqar-un-Nisa Quadri and S. M. G. J. Quadri	3-25	85
Study upgrades Australia's Otway basin outlook—Sundar Sarma	4-22	83
New Albany shale gas flow starts in western Indiana	4-29	69
Two basins explored in Dominican Republic—Gerald M. Ellis	4-29	71
Discoveries mount in E. Texas Cotton Valley pinnacle reef play—G. Alan Petzet	5-6	124
Opportunities seen in three petroleum systems in Niger—Mamadou Zanguina, Alain Bruneton, and Robert Gonnard	5-6	126
Anatomy of success in oil and gas exploration in Pakistan, 1915-94—Viqar-un-Nisa Quadri and S. M. G. J. Quadri	5-13	92
WESTERN INDONESIA—1: Sequence stratigraphy buoys W. Indonesia basins—Steven Courteney	5-20	86
WESTERN INDONESIA—2: Middle Eocene, older sequences in rifts key to potential in western Indonesia—Steven Courteney	5-27	71
ALASKA'S E&P OUTLOOK—2: Goal: Stem N. Slope output decline	6-24	56
Jackfork play grows but economics tough—G. Alan Petzet	7-8	60
COLOMBIA'S OIL & GAS FUTURE. Colombia continues to yield major oil, gas discoveries—Carla Ketner McGettigan and David G. Hunt	7-15	40
COLOMBIA'S OIL & GAS FUTURE. Exploration potential seen in little-known Cauca basin—James A. Noel	7-15	46
Cambrian rework may spark Williston play—G. Alan Petzet	7-22	58
Iraq's significant hydrocarbon potential remains relatively undeveloped—Mohammad AL-Gailani	7-29	108
Islip axis gas could support Central England power generation—Desmond H. Oswald	8-5	55
Chesapeake presses Louisiana Austin chalk pace—G. Alan Petzet	8-12	86
Maquoketa paleotopography key to reservoirs in western Illinois—Stephen T. Whitaker and John C. Ledbetter	8-12	87
ARKANSAS-OKLAHOMA OUACHITAS—1: Update on the Ouachitas: The potential still exists—John H. Gray and Arthur J. Pyron	8-19	93
Egypt Nile delta gas plays take off—G. Alan Petzet	8-26	61
Tennessee gas field brings Western Overthrust new life—G. Alan Petzet	9-2	93
Gas sales starting from Indiana's fractured New Albany shale—Edward D. Minihan and Ray D. Buzzard	9-2	96
Gulf Coast migration patterns: A basis for exploration strategies—J. C. Pratsch	9-9	71
Frontier basins seeing new exploration in New Mexico—Ronald F. Broadhead	9-16	53
Balochistan basin of Pakistan deserves a second look—Viqar-un-Nisa Quadri and S. M. G. J. Quadri	9-23	93
Relinquishments in Argentina will boost exploration interest—Juan Carlos Pucci	9-30	103
Tanzania wildcats to evaluate Jurassic Mandawa salt basin—Mamdouh Nagati	10-7	109
MICHIGAN DUNDEE—1: Horizontal well taps bypassed Dundee oil in Crystal field, Mich.—James R. Wood, J. R. Allan, Jacqueline E. Huntoon, Wayne D. Pennington, William B. Harrison III, Eric Tylor, and Craig J. Tester	10-21	60
Concealed evaporite basin drilled in Arizona—Steven L. Rauzi	10-21	64
Egypt western desert activity hits high gear—G. Alan Petzet	11-4	96
Raton basin coalbed methane production picking up in Colorado—H. Thomas Hemborg	11-11	101
Discoveries, developments boost interest in Bangladesh	11-11	103
Mexico's basins could provide niches for various sized firms—George Baker and James Lee Wilson	11-18	53
Oil and gas shows numerous in Nama basin, southern Africa—Malcolm Walter, Roger Swart, and Roger Summons	11-25	76
Lodgepole reef potential seen in Montana Williston basin—Larry Brogdon, Stanton M. Ball, and David S. Ball	12-16	47
Tamarugal basin exploration under way in northern Chile—Michael Roos	12-30	89
GEOPHYSICS		
EXPLORATION TECHNIQUE SYNERGIES—1: Offshore 3D seismic, geochemical data integration, Main Pass project, Gulf of Mexico—John Q. Belt Jr. and Gary K. Rice	4-1	76
EXPLORATION TECHNIQUE SYNERGIES—2: Advantages seen in integrated offshore 3D seismic, geochem data—John Q. Belt Jr. and Gary Rice	4-8	100
INTEGRATING EARTH SCIENCE AND TECHNOLOGY. 4D seismic monitoring grows as production tool—Wei He, Roger N. Anderson, Liqing Xu, Albert Boulanger, Billy Meadow, and Randall Neal	5-20	41
INTEGRATING EARTH SCIENCE AND TECHNOLOGY. Parallel computing alters approaches, raises integration challenges in reservoir modeling—Gautam S. Shiralkar, Richard F. Volz, Robert E. Stephenson, Manny J. Valle, and Kirk B. Hird	5-20	48
INTEGRATING EARTH SCIENCE AND TECHNOLOGY. Study advances view of geopressure seals—William M. Benzing and G. Michael Shook	5-20	62
Salt dome discoveries mounting in Mississippi—Rick L. Ericksen	6-17	54
What do seismic 'bright fractures' indicate?—Fabrizio Rigo	7-1	132
Frio, Yegua objectives of E. Texas 3D seismic	7-1	138
Ordovician/Cambrian strata of Central Tennessee—a new play in a mature area—Steven A. Tedesco	7-22	53
ARKANSAS-OKLAHOMA OUACHITAS—2: Well data, remote sensing point to potential in Ouachitas—John H. Gray and Arthur J. Pyron	8-26	64
Field off Sakhalin gets 3D seismic survey	9-2	95
Chasing the Rose Run play with 3D seismic in New York—Bruce Hart and David Copley	10-14	88
APPLIED GEOPHYSICS. Parallel computing helps 3D depth imaging, processing—E. O. Nestvol, C. B. Su, J. L. Black, and I. G. Jack	10-28	35
APPLIED GEOPHYSICS. 3D survey combines acquisition, processing, interpretation–Peter M. Duncan, Eric B. Gardner, Douglas C. Nester, and Jay E. Valusek	10-28	44

	Date	Page
APPLIED GEOPHYSICS. Amplitude changes with offset evident in subsalt data—Richard O. Lindsay and David Ratcliff	10-28	51
APPLIED GEOPHYSICS. Depth maps from seismic velocities help Wilcox exploration—C. E. Guzman, M. Ramaswamy, B. K. Wright, and K. P. Lawler	10-28	62
MICHIGAN DUNDEE—2: Horizontal well success spurs more Devonian work in Michigan—James R. Wood, J. R. Allan, Jacqueline E. Huntoon, Wayne D. Pennington, William, B. Harrison III, Eric Taylor, and Craig J. Tester	10-28	86
Poor boy 3D seismic effort yields South Central Kentucky discovery—Michael Hanratty	11-4	93
How radiometric anomalies relate to Colorado, Montana oil fields—Robert Zinke and Jerome G. Morse	11-11	96
Seismic data acquisition storage advances hailed	11-25	82
RADAR METHODS—1: Science behind sensing hydrocarbon seepage using X-band radar—Thomas C. Bailey and Merrill I. Skolnik	12-2	85
RADAR METHODS—2: Application of X-band radar to sense hydrocarbon seepage—Thomas C. Bailey	12-9	72
Seismic, drilling committed on tracts off Falkland Islands—Phil Richards, Nigel Fannin, and Phyllis Rendell	12-23	111
FM seismic technique due field tests	12-30	92

MANAGEMENT

Managing overseas E&P in the age of the Internet—Steven M. Tobias	3-4	75

METHODS AND TECHNIQUES

Study to gauge impact of technology advances—Robert H. Caldwell, James L. Merkel, and John Hansen	2-12	54
Nonseismic methods can provide many views of a drillsite—J. P. Land	2-26	69
EXPLORATION TECHNIQUE SYNERGIES—1: Offshore 3D seismic, geochemical data integration, Main Pass project, Gulf of Mexico—John Q. Belt Jr. and Gary K. Rice	4-1	76
Advances benefit tight gas sands development—Vello A. Kuuskraa, Thomas E. Hoak, Jason A. Kuuskraa, and John Hansen	4-8	103
INTEGRATING EARTH SCIENCE AND TECHNOLOGY. 4D seismic monitoring grows as production tool—Wei He, Roger N. Anderson, Liqing Xu, Albert Boulanger, Billy Meadow, and Randall Neal	5-20	41
INTEGRATING EARTH SCIENCE AND TECHNOLOGY. Parallel computing alters approaches, raises integration challenges in reservoir modeling—Gautam S. Shiralkar, Richard F. Volz, Robert E. Stephenson, Manny J. Valle, and Kirk B. Hird	5-20	48
INTEGRATING EARTH SCIENCE AND TECHNOLOGY. Extended integration the key to future productivity leap—Robert P. Peebler	5-20	57
Benzene content of subsurface brines can indicate proximity of oil, gas—Stephen G. Burtell and Victor T. Jones III	6-3	59
Canada's commercially oriented Radarsat returns SAR data for oil, gas exploration—Robert E. Tack	7-15	70
RADAR METHODS—1: Science behind sensing hydrocarbon seepage using X-band radar—Thomas C. Bailey and Merrill I. Skolnik	12-2	85
RADAR METHODS—2: Application of X-band radar to sense hydrocarbon seepage—Thomas C. Bailey	12-9	72

OFFSHORE

NW gulf's Perdido fold belt due deep exploratory test	2-26	73
EXPLORATION TECHNIQUE SYNERGIES—1: Offshore 3D seismic, geochemical data integration, Main Pass project, Gulf of Mexico—John Q. Belt Jr. and Gary K. Rice	4-1	76
EXPLORATION TECHNIQUE SYNERGIES—2: Advantages seen in integrated offshore 3D seismic, geochem data—John Q. Belt Jr. and Gary Rice	4-8	100
What fueled the bidding in record OCS Sale 157—A. D. Koen	5-6	40
Several carbonate reservoirs due tests at wildcat in Philippines Manila Bay	5-20	90
OFFSHORE NORTHERN EUROPE. North Sea development action brisk; plays expand elsewhere off Europe—David J. Knott	8-19	45
Flordia to issue offshore drilling permit	9-2	95
Gulf Coast migration patterns: A basis for exploration strategies—J. C. Pratsch	9-9	71

RESERVES

UNCONVENTIONAL GAS—4: Tight sands gain as U.S. gas source—Vello A. Kuuskraa, Tom E. Hoak, Jason A. Kuuskraa, and John Hansen	3-18	102
Study sizes up Iraq's reserves, exploration status, production potential—Muhammad W. Ibrahim	6-24	53
Venezuelan projects advance to develop world's largest heavy oil reserves—Greg Croft and Karl Stauffer	7-8	62
McKittrick field horizontal well planned	9-16	57
Wyoming's Manderson oil field growing fast	11-11	100

DRILLING

BITS

PRACTICAL DRILLING TECHNOLOGY. New bits, motors improve economics of slim hole horizontal wells—Scott McDonald, Floyd Felderhoff, and Keith Fisher	3-11	66
Flow pattern changes improve roller cone bit performance—Alan D. Huffstutler	5-6	113
Irregular tooth spacing reduces roller cone bit tracking problems—John V. Kenner and Turlach P. Boylan	5-13	85
Asymmetric nozzle designs increase penetration rate—J. E. Akin, N. R. Dove, and S. K. Smith	7-8	42
Nugget hardfacing toughens roller cone bits	11-25	71
PDC bit hydraulics design, profile are key to reducing balling—P. R. Hariharan and J. J. Azar	12-9	58

BLOWOUTS, DISASTERS, FIRES, WILD WELLS

Organized investigation expedites insurance claims following a blowout—Roger Armstreet	1-22	46
Cooperation, logistics critical to well control operation in Irian Jaya jungle—Freddy Gebhardt and Richard Leturno	4-15	71

CASING

Rigid centralizers improve cementing casing through caverns—Boris M. Kurochkin	8-19	83
Accurate casing ID key to cement drill outs	11-25	70

CEMENTING (Also See Production)

Updated lab equipment can improve cement slurry testing—Dan Webster and Jeff Moon	1-29	97
PRACTICAL DRILLING TECHNOLOGY. Foamed cement job successful in deep HTHP offshore well—O. Glen Benge, Jim R. McDermott, Joey C. Langlinais, and James E. Griffith	3-11	50
Rigid centralizers improve cementing casing through caverns—Boris M. Kurochkin	8-19	83
Shear rate has greater influence on cement slurry properties than total mixing energy—Paul Padgett	10-7	84
Slag/mud mixtures improve cementing operations in China—Dahua Wu, Pieyan, and Bozong Huang	12-23	95

COMPLETIONS, General and Multiple (also see Production)

Specialized equipment enabled completions with large coiled tubing—Robert W. Taylor and Bruce Conrad	2-19	32
Thin-walled liner equipment cuts costs on well deepening project—Jamie Sutherland, Chris Weaver, and Peter Aiello	8-26	46
Well control procedures developed for multilateral wells—Yuejin Luo, Allan Gibson, Carl Mountford, Ted Hibbert, and Curtis Weddle	11-4	84

COMPUTERS/MICROCOMPUTERS

Foam computer model helps in analysis of underbalanced drilling—Gefei Liu and George H. Medley Jr.	7-1	114
Well control model analyzes unsteady state, two-phase flow—Jonggeun Choe and Hans C. Juvkam-Wold	12-2	68
Simulator improves control of kicks taken during tripping operations—David J. Element and Nigel P. Brown	12-16	27

COSTS

Simple steps help minimize costs, risks in project contracts—Jorge A. Camps	1-22	32
Thin-walled liner equipment cuts costs on well deepening project—Jamie Sutherland, Chris Weaver, and Peter Aiello	8-26	46

DEEP WELLS

Condensate kicks pose additional problems for deep well control—R. Szczepanski, B. Edmonds, T. K. Yerlett, N. P. Brown, and T. A. P. Hamilton	6-17	31

DIRECTIONAL, CROOKED-HOLE, WELL-BORE SURVEYS

WORLDWIDE CATALYST REPORT. Three-step procedure optimizes FCC slide-valve differential pressure—Ray Fletcher	10-14	56

DRILL COLLARS

Drillstring sub cuts torque and casing wear—David William Rodman and George Swietlik	10-14	64

	Date	Page
DRILL PIPE		
Drillstring sub cuts torque and casing wear—David William Rodman and George Swietlik	10-14	64
FLUIDS (Mud, Air, Gas) PRACTICES, SYSTEMS		
UNDERBALANCED DRILLING—1: Underbalanced operations offer pluses and minuses—D. Brant Bennion	1-1	33
UNDERBALANCED DRILLING—Conclusion: Screening criteria help select formations for underbalanced drilling—D. Brant Bennion	1-8	58
Equations determine flow states for yield-pseudoplastic drilling fluids—Roberto Maglione and Gualtiero Ferrario	2-5	63
BP, Mobil to merge European refining, sales	3-4	40
Synthetic-based muds can improve drilling efficiency without polluting—John A. Veil, Christopher J. Burke, and David O. Moses	3-4	49
Extended-length downhole mud motor designed for more power—Volker Krueger	3-25	70
Soluble-silicate mud additives inhibit unstable clays—Ding Rui, Qiu Zhengsong, and Li Jianying	4-1	66
Properly designed underbalanced drilling fluids can limit formation damage—P. L. Churcher, Fred J. Yurkiw, Ron F. Bietz, and D. Brant Bennion	4-29	50
Closed loop drilling systems can eliminate reserve pit costs—Lance Astrella and Reginald Wiemers	5-27	62
Foam computer model helps in analysis of underbalanced drilling—Gefei Liu and George H. Medley Jr.	7-1	114
Bingham plastic fluids more effectively clean horizontal holes—Jack Estes, Bill Randall, and Ken Bridges	11-11	89
Slag/mud mixtures improve cementing operations in China—Dahua Wu, Pieyan, and Bozong Huang	12-23	95
FORECASTS, TRENDS, STATISTICS, SURVEYS		
FORECAST AND REVIEW. Slight rise possible in U.S. drilling; Canadian action sags—G. Alan Petzet and Robert J. Beck	1-29	73
U.S. independent operators step up exploration, development abroad—A. D. Koen	3-4	31
MIDYEAR FORECAST. U.S. worldwide drilling activity to increase this year—Robert J. Beck and G. Alan Petzet	7-29	78
DRILLING REPORT. Rig activity strengthening, utilization high—Keith Rappold	9-23	49
DRILLING REPORT. Strong growth projected for underbalanced drilling—John R. Duda, George H. Medley Jr., and W. Gregory Deskins	9-23	67
API: '95 U.S. drilling outlays up 8.9%	11-25	30
HORIZONTAL DRILLING		
Horizontal projects buoy Williston recovery—G. Alan Petzet	1-15	21
Horizontal well strategy taps attic oil—Fred Morissey	1-15	38
Horizontal well taps Elk Hills shallow zone	1-22	59
PRACTICAL DRILLING TECHNOLOGY. New bits, motors improve economics of slim hole horizontal wells—Scott McDonald, Floyd Felderhoff, and Keith Fisher	3-11	66
Horizontal well successfully drilled in Black Warrior basin—Johnnie R. Butler and Butch Skeen	7-22	33
Horizontal Devonian well spurs Michigan work—G. Alan Petzet	7-29	114
Bingham plastic fluids more effectively clean horizontal holes—Jack Estes, Bill Randall, and Ken Bridges	11-11	89
MAINTENANCE		
Snubbing workover operations in deep sour gas wells a success—Mike R. Konopczynski and Mike R. Milligan	2-12	35
Dynamic model predicts well bore surge and swab pressures—Zhong Bing and Zhou Kaiji	12-30	74
MANAGEMENT		
Organized investigation expedites insurance claims following a blowout—Roger Armstreet	1-22	46
PRACTICAL DRILLING TECHNOLOGY. Aggressive program, simplicity cut drilling time offshore Trinidad—Gary L. Wallen	3-11	49
Cooperation, logistics critical to well control operation in Irian Jaya jungle—Freddy Gebhardt and Richard Leturno	4-15	71
DRILLING REPORT. Successful alliances driven by processes, not discounts—J. Ford Brett, John Aslakson, Valerie B. Craig, Kathryne E. Pile, David B. Wadsworth, and Kathryn V. Brett	9-23	57
MOTORS, Downhole		
Tandem motors increase well bore penetration rate—Steve Matthews and Ron McCosh	2-26	62
PRACTICAL DRILLING TECHNOLOGY. New bits, motors improve economics of slim hole horizontal wells—Scott McDonald, Floyd Felderhoff, and Keith Fisher	3-11	66
Extended-length downhole mud motor designed for more power—Volker Krueger	3-25	70
OFFSHORE		
PRACTICAL DRILLING TECHNOLOGY. Aggressive program, simplicity cut drilling time offshore Trinidad—Gary L. Wallen	3-11	49
PRACTICAL DRILLING TECHNOLOGY. Foamed cement job successful in deep HTHP offshore well—O. Glen Benge, Jim R. McDermott, Joey C. Langlinais, and James E. Griffith	3-11	50
OFFSHORE PETROLEUM OPERATIONS. Minimizing surface hole washout helped prevent conductor pipe failure—Brian Kelly Talkington, Roger L. Thomas, and Earl H. Doyle	5-6	88
Exploration marks slow progress in Irish Sea	6-10	33
OFFSHORE NORTHERN EUROPE. North Sea development action brisk; plays expand elsewhere off Europe—David J. Knott	8-19	45
OFFSHORE NORTHERN EUROPE. Shell chooses floating units for Central N. Sea projects—Robert Weener	8-19	58
Flordia to issue offshore drilling permit	9-2	95
Offshore rig market getting tighter off Northwest Europe—David Knott	12-2	25
PRACTICES		
UNDERBALANCED DRILLING—1: Underbalanced operations offer pluses and minuses—D. Brant Bennion	1-1	33
UNDERBALANCED DRILLING—Conclusion: Screening criteria help select formations for underbalanced drilling—D. Brant Bennion	1-8	58
Horizontal well strategy taps attic oil—Fred Morissey	1-15	38
PRACTICAL DRILLING TECHNOLOGY. Sonic logging-while-drilling tool produces wire line quality data—Dale R. Heysse	3-11	71
There are solutions to LWD depth measurement problems—Colin A. Tait and Kenneth H. Hamlin	3-18	86
New solids control system reduced oil on cuttings—T. P. Wilkinson	4-8	47
OFFSHORE PETROLEUM OPERATIONS. Minimizing surface hole washout helped prevent conductor pipe failure—Brian Kelly Talkington, Roger L. Thomas, and Earl H. Doyle	5-6	88
Introduction set for logging tool advance	5-27	25
Closed loop drilling systems can eliminate reserve pit costs—Lance Astrella and Reginald Wiemers	5-27	62
Monitoring pressure buildup helps determine hole cleaning efficiency—V. A. Hurshudov and N. I. Andrianov	6-3	55
Logging while tripping cuts time to run gamma ray	6-10	65
U.S. produced water discharge regulations have tough limits—Gordon H. Otto and Kenneth E. Arnold	7-15	54
Batch drilling program cuts time, costs for Liuhua development—George E. Gray, Kenneth H. Hall, and Huang Chang Mu	8-12	69
Monitoring downhole pressures and flow rates critical for underbalanced drilling—S. D. Butler, A. U. Rashid, and R. R. Teichrob	9-16	31
DRILLING REPORT. Strong growth projected for underbalanced drilling—John R. Duda, George H. Medley Jr., and W. Gregory Deskins	9-23	67
Record extended reach well drilled off Tierra del Fuego	10-14	85
Effective reentry methods reduce costs and optimize production—Greg Szutiak and Dennis Walker	10-21	37
Well control procedures developed for multilateral wells—Yuejin Luo, Allan Gibson, Carl Mountford, Ted Hibbert, and Curtis Weddle	11-4	84
Well control model analyzes unsteady state, two-phase flow—Jonggeun Choe and Hans C. Juvkam-Wold	12-2	68
Simulator improves control of kicks taken during tripping operations—David J. Element and Nigel P. Brown	12-16	27
Dynamic model predicts well bore surge and swab pressures—Zhong Bing and Zhou Kaiji	12-30	74
RESEARCH		
Updated lab equipment can improve cement slurry testing—Dan Webster and Jeff Moon	1-29	97
Irregular tooth spacing reduces roller cone bit tracking problems—John V. Kenner and Turlach P. Boylan	5-13	85
Full-scale tests help improve reliability of DST tools—Paul Ringgenberg and John C. Self	8-5	46
RIGS (Land, Jack Ups, Drillships, Barges, etc.)		
Noble's offshore rig fleet headed for expansion	3-11	39
Shell development programs in gulf get new H&P rigs	4-29	20
Sonat lets contract for giant drillship	8-26	27
Semi designed for conversion to drilling/production unit—John Vecchio and Denis Graham	9-2	76
Shell commissions new drilling spar design	10-7	43
U.S. rig utilization rate best since boom days—Keith Rappold	10-28	23
Tight North Sea rig market to persist	10-28	24
Global Marine's score index gauge of MODU newbuilding	11-25	25
Offshore rig market getting tighter off Northwest Europe—David Knott	12-2	25

	Date	Page
SAFETY		
Condensate kicks pose additional problems for deep well control—R. Szczepanski, B. Edmonds, T. K. Yerlett, N. P. Brown, and T. A. P. Hamilton	6-17	31
OFFSHORE NORTHERN EUROPE. U.K. offshore safety regime raises new challenges—Mike Baily	8-19	66
Oil companies focus on health care for remote operations—Anne Rhodes	8-19	76
WASTE DISPOSAL		
U.S. produced water discharge regulations have tough limits—Gordon H. Otto and Kenneth E. Arnold	7-15	54
Salt caverns show promise for nonhazardous oil field waste disposal—John A. Veil	11-18	42

PRODUCTION

ANALYSIS		
Geographic location considered in PVT calculation program—Abdel M. Elsharkawy and Dawood El-Mater	1-22	36
Calibration prerequisite for accurate PVT measurements—Nikos Varotsis and N. Pasadakis	1-29	93
Dynamic fluid-loss measurements improve frac design—Sanjay Vitthal and Patrick Walker	9-2	87
Multiple correlations improve well pressure-loss calculations—A. M. A. Mawla, T. Darwich, M. H. Sayyouh, and K. Abdel-Fattah	9-9	62
BACTERIA AND BACTERIAL CONTROL		
Study examines sulfate-reducing bacteria activity—John E. McElhiney, John A. Hardy, Tony Y. Rizk, James F. D. Stott, and Robert D. Eden	12-9	68
COALBED METHANE		
Accurate casing ID key to cement drill outs	11-25	70
COMMUNICATIONS		
Common carrier gulf tele network set up	5-13	84
Vessel movement influences offshore communication system—Stanley R. Holcomb and Stephen D. Burger	5-27	55
PRODUCTION REPORT. Remote actuation system speeds deepwater well completions—Terry Bussear	10-7	56
COMPLETIONS		
Specialized equipment enabled completions with large coiled tubing—Robert W. Taylor and Bruce Conrad	2-19	32
Wellhead and tree standards updated—Anton J. Dach Jr. and Timothy Haeberle	3-11	87
Expandable tube is novel tool for difficult completions, drilling—Daljit S. Gill, Wim C. Lohbeck, and R. Bruce Stewart	6-3	37
TAPS' reduced flow to reflect N. Slope decline	6-10	30
Program cuts gas well drilling/completion costs—Ray N. Walker Jr. and C. D. Martin	7-1	120
COMPUTERS/MICROCOMPUTERS		
Modifications improve waterflood performance model—A. H. El-Banbi, A. Abdel Wally, K. A. Abd el Fattah, and M. H. Sayyouh	1-1	41
Program cuts gas well drilling/completion costs—Ray N. Walker Jr. and C. D. Martin	7-1	120
U.S. independents' technology transfer initiative mushrooming—Patrick Crow	8-19	27
COMPUTERS, Programs		
Model, analysis debottleneck complicated field gathering system—Ken J. Vargas	9-30	50
Probabilistic model better defines development well risks—Marc R. Connolly	10-14	78
Program predicts altered zone heat loss in steam injector—I. M. Kutasov	11-18	46
COST		
Model improves oil field operating cost estimates—John L. Glaeser	4-1	64
PRODUCTION REPORT. Cutting power costs starts with basic analyses—Mike Paik	10-7	62
EMULSIONS AND TREATING Biotreating produced water could save costs, benefit environment	5-6	111
ENHANCED RECOVERY METHODS		
Modifications improve waterflood performance model—A. H. El-Banbi, A. Abdel Wally, K. A. Abd el Fattah, and M. H. Sayyouh	1-1	41
Steamflood expansion includes liquid redox process	1-29	99
Thermoplastic film prevents proppant flowback—Philip D. Nguyen, Jimmie D. Weaver, Mark A. Parker, and Dwain G. King	2-5	60
EOR SURVEY AND ANALYSIS. New technology, improved economics boost EOR hopes—Guntis Moritis	4-15	39
Field tests assess novel air-injection EOR processes—Mohammed Reza Fassihi, Travis H. Gillham, Demetrios V. Yannimaras, and Dave Hassan	5-20	69
CO_2 EOR starts in late stage of waterflood	7-8	56
More CO_2 floods start up in West Texas—Guntis Moritis	8-19	87
EQUIPMENT		
Wellhead and tree standards updated—Anton J. Dach Jr. and Timothy Haeberle	3-11	87
Expandable tube is novel tool for difficult completions, drilling—Daljit S. Gill, Wim C. Lohbeck, and R. Bruce Stewart	6-3	37
FIELD OPERATIONS		
Certain facility, equipment designs lessen environmental costs—S. S. R. Pappworth	2-26	47
Satellite subsea development starts up in North Sea	9-23	82
Model, analysis debottleneck complicated field gathering system—Ken J. Vargas	9-30	50
Probabilistic model better defines development well risks—Marc R. Connolly	10-14	78
Simulation forecasts complex flow streams from Ekofisk—Fatos Cecen Arnes, Henning Lillejord, and Andrew Vieler	10-28	69
FLUID INJECTION		
Frac packs complicate PNC log evaluation—Clarke L. Bean, Syed A. Ali, and George N. Salaita	12-23	105
FORECASTS, TRENDS, STATISTICS, SURVEYS		
Worldwide crude oil and gas production	1-8	79
logcc pinpoints value of stripper production	1-29	42
OPEC oil production declines	1-29	45
Worldwide crude oil and gas production	2-12	62
Worldwide crude oil and gas production	3-11	109
U.S. horizontal wells show varied production performance—Gary S. Swindell	3-25	66
Worldwide crude oil and gas production	4-8	110
EOR SURVEY AND ANALYSIS. New technology, improved economics boost EOR hopes—Guntis Moritis	4-15	39
EOR SURVEY AND ANALYSIS. 1996 Worldwide EOR Survey	4-15	45
Worldwide crude oil and gas production	5-13	102
ALASKA'S E&P OUTLOOK—1: Cooperative spirit paves way for Alaskan E&P operations	6-10	71
Worldwide crude oil and gas production	6-10	78
Worldwide crude oil and gas production	7-8	67
COLOMBIA'S OIL & GAS FUTURE. Discoveries, financial strength lift Colombia—A. D. Koen	7-15	35
Worldwide crude oil and gas production	8-12	93
Worldwide crude oil and gas production	9-9	77
Worldwide crude oil and gas production	10-14	94
logcc study: U.S. stripper oil production at its lowest since 1947	10-28	30
Worldwide crude oil and gas production	11-11	110
Worldwide crude oil and gas production	12-9	78
WORLDWIDE PRODUCTION—Oil and gas reserves, oil output rise in 1996	12-30	37
WORLDWIDE PRODUCTION—Worldwide look at reserves and production	12-30	40
WORLDWIDE PRODUCTION—Survey	12-30	42
FRACTURING		
Fraced horizontal well shows potential of deep tight gas—Siegfried Schuler and Rene Santos	1-8	46
Thermoplastic film prevents proppant flowback—Philip D. Nguyen, Jimmie D. Weaver, Mark A. Parker, and Dwain G. King	2-5	60
Dynamic fluid-loss measurements improve frac design—Sanjay Vitthal and Patrick Walker	9-2	87
Frac packs complicate PNC log evaluation—Clarke L. Bean, Syed A. Ali, and George N. Salaita	12-23	105
GAS LIFT		
Study optimizes gas lift in Gulf of Suez field—A. A. Abdel-Waly, T. A. Darwish, A. Osman Salama, and M. El-Naggar	6-24	38
Compressor solves solution gas bottleneck—Ken J. Vargas and Frank Lowe	8-5	37
GATHERING (Lines, Systems, Metering, Storage, Tankage)		
Simulation forecasts complex flow streams from Ekofisk—Fatos Cecen Arnes, Henning Lillejord, and Andrew Vieler	10-28	69

	Date	Page
HORIZONTAL WELLS		
Fraced horizontal well shows potential of deep tight gas—Siegfried Schuler and Rene Santos	1-8	46
Shell patents new reservoir drainage concept	2-12	40
Corrected logs indicate lithofacies around horizontal wells—G. M. Hamada	3-4	56
U.S. horizontal wells show varied production performance—Gary S. Swindell	3-25	66
MICHIGAN DUNDEE—1: Horizontal well taps bypassed Dundee oil in Crystal field, Mich.—James R. Wood, J. R. Allan, Jacqueline E. Huntoon, Wayne D. Pennington, William B. Harrison III, Eric Tylor, and Craig J. Tester	10-21	60
MICHIGAN DUNDEE—2: Horizontal well success spurs more Devonian work in Michigan—James R. Wood, J. R. Allan, Jacqueline E. Huntoon, Wayne D. Pennington, William, B. Harrison III, Eric Taylor, and Craig J. Tester	10-28	86
LOGGING (Formation, Spinner, etc.)		
Corrected logs indicate lithofacies around horizontal wells—G. M. Hamada	3-4	56
PRACTICAL DRILLING TECHNOLOGY. Sonic logging-while-drilling tool produces wire line quality data—Dale R. Heysse	3-11	71
Logging while tripping cuts time to run gamma ray	6-10	65
Raster images offer low-cost well log preservation—Susan L. Cisco	12-16	40
MAINTENANCE		
Various factors affect coiled tubing limits—Yong S. Yang	1-15	43
Probes record temperature during hot oiling	4-8	45
Solvent removes downhole NORM-contaminated BASO4 scale—W. G. F. Ford, L. L. Gadeken, T. J. Callahan, and D. Jackson	4-22	65
HYDRATES, PARAFFINS—1: Fluid properties determine flow line blockage potential—Alex Hunt	7-15	62
HYDRATES, PARAFFINS—CONCLUSION. Uncertainties remain in predicting paraffin deposition—Alex Hunt	7-29	96
Compressor solves solution gas bottleneck—Ken J. Vargas and Frank Lowe	8-5	37
Debottlenecking removes Auger production constraints—Thomas R. Judd and C. B. Wallace	11-11	74
MANAGEMENT		
Certain facility, equipment designs lessen environmental costs—S. S. R. Pappworth	2-26	47
OFFSHORE		
Compression decks extend production platform life—Ian Mackenzie	2-5	47
Threaded riser connectors save time in deepwater installation—Steve Brashier and Joseph R. Roche	5-13	78
Vessel movement influences offshore communication system—Stanley R. Holcomb and Stephen D. Burger	5-27	55
Economics, new technology improve Danish offshore oil recovery—Aksel Mortensgaard	6-10	58
Study optimizes gas lift in Gulf of Suez field—A. A. Abdel-Waly, T. A. Darwish, A. Osman Salama, and M. El-Naggar	6-24	38
OFFSHORE NORTHERN EUROPE. Oryx squeezes extra production from mature U.K. N. Sea fields—Martin Cole	8-19	71
Wildcat succeeds in shallow gulf water	8-26	58
Armada platform topsides takes shape in U.K. yard	9-2	29
Semi designed for conversion to drilling/production unit—John Vecchio and Denis Graham	9-2	76
Satellite subsea development starts up in North Sea	9-23	82
PRODUCTION REPORT. New technology, concepts aim at lower costs—Guntis Moritis	10-7	49
PRODUCTION REPORT. Remote actuation system speeds deepwater well completions—Terry Bussear	10-7	56
Clarke Chapman provides giant hose reels for FPSOs	11-4	34
Debottlenecking removes Auger production constraints—Thomas R. Judd and C. B. Wallace	11-11	74
DESULFATING INJECTION WATER—1: Membranes solve North Sea waterflood sulfate problems—Roy Davis, Ian Lomax, and Mark Plummer	11-25	59
DESULFATING INJECTION WATER—2: Membrane technology works on North Sea platform—Keith O'Donnell	12-2	58
DESULFATING INJECTION WATER—Conclusion: Low sulfate seawater mitigates barite scale—J. A. Hardy and I. Simm	12-9	64
OFFSHORE PLATFORMS		
Deepwater fixed platforms now aimed at future optimization—Scott D. Powers and Sandeep Khurana	2-12	41
Low cost mudslide resistant platform exploits delta gas—Castor M. Surla, Lee. D. Danner, and Michael C. Kreinsen	3-18	83
OFFSHORE PETROLEUM OPERATIONS. Gulf of Mexico platform operators cope with abandonment issues—Guntis Moritis	5-6	57
OFFSHORE PETROLEUM OPERATIONS. Explosives remain preferred method for platform abandonment—Allan Pulsipher, William Daniel IV, James E. Kiesler, and Vance Mackey III	5-6	64
Electronic sound system rids platforms of seagulls	6-10	64
OFFSHORE NORTHERN EUROPE. Shell chooses floating units for Central N. Sea projects—Robert Weener	8-19	58
Hibernia topsides, base construction nearing completion	10-28	25
OPERATING IDEAS		
Threaded riser connectors save time in deepwater installation—Steve Brashier and Joseph R. Roche	5-13	78
TAPS' reduced flow to reflect N. Slope decline	6-10	30
Oil companies focus on health care for remote operations—Anne Rhodes	8-19	76
Wildcat succeeds in shallow gulf water	8-26	58
PRODUCTION REPORT. New technology, concepts aim at lower costs—Guntis Moritis	10-7	49
PRODUCTION REPORT. Cutting power costs starts with basic analyses—Mike Paik	10-7	62
DESULFATING INJECTION WATER—1: Membranes solve North Sea waterflood sulfate problems—Roy Davis, Ian Lomax, and Mark Plummer	11-25	59
PARAFFIN		
HYDRATES, PARAFFINS—1: Fluid properties determine flow line blockage potential—Alex Hunt	7-15	62
HYDRATES, PARAFFINS—CONCLUSION. Uncertainties remain in predicting paraffin deposition—Alex Hunt	7-29	96
POLLUTION CONTROL		
Solvent removes downhole NORM-contaminated $BASO_4$ scale—W. G. F. Ford, L. L. Gadeken, T. J. Callahan, and D. Jackson	4-22	65
DESULFATING INJECTION WATER—2: Membrane technology works on North Sea platform—Keith O'Donnell	12-2	58
Microwave-based process recovers oil from sludge at Texas site	12-2	66
PRESSURE MAINTENANCE		
Calibration prerequisite for accurate PVT measurements—Nikos Varotsis and N. Pasadakis	1-29	93
PUMPING		
PRODUCTION REPORT. Improved designs reduce sucker-rod pumping costs—Gabor Takacs	10-7	68
RESEARCH		
Multiphase-flow choke correlation limits analyzed—Donald A. Lannom and D. G. Hatzignatiou	4-8	37
GRI technology transfer effort targets producer cost savings	8-19	29
SAFETY		
OFFSHORE PETROLEUM OPERATIONS. Explosives remain preferred method for platform abandonment—Allan Pulsipher, William Daniel IV, James E. Kiesler, and Vance Mackey III	5-6	64
OFFSHORE NORTHERN EUROPE. U.K. offshore safety regime raises new challenges—Mike Baily	8-19	66
Oil companies focus on health care for remote operations—Anne Rhodes	8-19	76
SCALES AND DEPOSITIONS		
DESULFATING INJECTION WATER—Conclusion: Low sulfate seawater mitigates barite scale—J. A. Hardy and I. Simm	12-9	64
WATER DISPOSAL		
Biotreating produced water could save costs, benefit environment	5-6	111
WELL STIMULATION		
Program predicts altered zone heat loss in steam injector—I. M. Kutasov	11-18	46
WELL TESTING		
Multiphase-flow choke correlation limits analyzed—Donald A. Lannom and D. G. Hatzignatiou	4-8	37
Multiple correlations improve well pressure-loss calculations—A. M. A. Mawla, T. Darwich, M. H. Sayyouh, and K. Abdel-Fattah	9-9	62
WORKOVERS, REPAIRS, RECOMPLETION		
Various factors affect coiled tubing limits—Yong S. Yang	1-15	43
Snubbing workover operations in deep sour gas wells a success—Mike R. Konopczynski and Mike R. Milligan	2-12	35
Effective reentry methods reduce costs and optimize production—Greg Szutiak and Dennis Walker	10-21	37

GAS PROCESSING

	Date	Page
ANALYSIS		
Analyzer for H_2S, CO_2 promises savings for amine operations—F. Douglas Skinner, John Kosch, and Jorge P. Gamez	3-11	76
COSTS		
Analyzer for H_2S, CO_2 promises savings for amine operations—F. Douglas Skinner, John Kosch, and Jorge P. Gamez	3-11	76
EQUIPMENT		
'Liquid turbines' improve LNG operations—L. L. Johnson and Gerard Renaudin	11-18	31
FORECASTS, TRENDS, STATISTICS, SURVEYS		
WORLDWIDE CONSTRUCTION. Gas Processing—Michelle Williamson	4-8	86
WORLDWIDE GAS PROCESSING. U.S. gas processing consolidates while world tempo increases—Warren R. True	7-1	49
WORLDWIDE GAS PROCESSING. Global gas processing will strengthen to meet expanding markets—Rick R. Haun, Ken W. Otto, S. Craig Whitley, and Ronald L. Gist	7-1	55
WORLDWIDE GAS PROCESSING. Survey—Michelle Williamson	7-1	65
WORLDWIDE GAS PROCESSING. World sulfur poduction—Michelle Williamson	7-1	110
GAS SWEETENING		
Converting to DEA/MDEA mix ups sweetening capacity—Michael L. Spears, Kathy M. Hagan, Jerry A. Bullin, and Carl J. Michalik	8-12	63
LIQUEFIED NATURAL GAS (LNG)		
Australian LNG plant debottlenecked to 7.5 million tons/year—W. J. Brehaut and M. J. Concannon	1-8	54
U.S. LNG imports, exports to grow steadily through 2000—Edward J. Swain	2-12	46
North West Shelf LNG expansion proposed	10-28	25
'Liquid turbines' improve LNG operations—L. L. Johnson and Gerard Renaudin	11-18	31
Landmark Trinidad LNG export project gets off high center	12-16	12
Conflicting carrier capacity trends emerging in Japan	12-16	14
Phillips, Bechtel form alliance designed to expand LNG roles	12-16	15
Italy's ENEL cancels Nigeria LNG contract	12-30	28
Qatar ships first LNG to Japan, signs accord	12-30	28
LIQUEFIED PETROLEUM GAS (LPG)		
Converting LPG caverns to natural-gas storage permits fast response to market—N. Graeme Crossley	2-19	39
Carbon adsorption system protects LPG storage sphere—Carol A. Gothenquist and Karen M. Rooker	7-1	122
Far East LPG sales will grow faster than in West	12-30	78
MAINTENANCE		
Texas plant treats natural gas for use as alternative fuel	2-19	38
Upgraded gas plant anchors reconfigured gathering system—Warren R. True	2-26	65
OFFSHORE		
Receipt plant for North Sea gas completes second train—John R. Oliver	1-29	87
PLANT PRACTICES		
Texas plant retrofit improves throughput, C_2 recovery—Joe T. Lynch and Richard N. Pitman	6-3	41
PLANTS, Construction		
Nelson-Farrar Cost Indexes	1-1	40
Receipt plant for North Sea gas completes second train—John R. Oliver	1-29	87
WORLDWIDE CONSTRUCTION. Sulfur—Michelle Williamson	4-8	84
Argentine gas plant starts up	7-8	57
Venezuelan plant completes instrument upgrade—Heberto Martinez and Cesar Ortega Garcia	7-22	37
WORLDWIDE. CONSTRUCTION Gas Processing—Marilyn Radler	9-30	88
POLLUTION CONTROL		
Texas plant treats natural gas for use as alternative fuel	2-19	38
PROCESSES		
Texas plant retrofit improves throughput, C_2 recovery—Joe T. Lynch and Richard N. Pitman	6-3	41
Activated carbon passes tests for acid-gas cleanup—Lewis G. Harruff and Stephen J. Bushkuhl	6-24	31
Converting to DEA/MDEA mix ups sweetening capacity—Michael L. Spears, Kathy M. Hagan, Jerry A. Bullin, and Carl J. Michalik	8-12	63
SAFETY		
Wyoming operator solves mercury exposure problems—Dena L. Lund	5-13	70
STORAGE		
Gravimeter yields rock density for cavern during operations—Stefan Folle and Olaf Rolfs	1-22	40
Converting LPG caverns to natural-gas storage permits fast response to market—N. Graeme Crossley	2-19	39
TRANSPORT		
Upgraded gas plant anchors reconfigured gathering system—Warren R. True	2-26	65

PIPELINE

GENERAL		
Cost		
Simple steps help minimize costs, risks in project contracts—Jorge A. Camps	1-22	32
Pipemaking advance to cut pipeline costs	9-16	20
PIPELINE COATINGS—Conclusion: Understanding mechanical properties critical to project economics—Kuruvila Varughese	9-16	40
Forecasts, Trends, Statistics, Surveys		
LNG shipments in 1994 set records	1-15	45
World's developing regions provide spark for pipeline construction—A. D. Koen and Warren R. True	2-5	27
Study details gulf gas pipeline competition	2-19	23
European pipelines have costly spills	3-4	69
Modernizing crude-oil pipelines critical in new Russian economic climate—Valery Davydovich Chernyaev	4-1	58
WORLDWIDE CONSTRUCTION. Pipeline—Michelle Williamson	4-8	90
COLOMBIA'S OIL & GAS FUTURE. Discoveries, financial strength lift Colombia—A. D. Koen	7-15	35
WORLDWIDE CONSTRUCTION. Pipeline—Marilyn Radler	9-30	93
PIPELINE ECONOMICS. U.S. pipelines continue gains into 1996—Warren R. True	11-25	39
Management		
Modernizing crude-oil pipelines critical in new Russian economic climate—Valery Davydovich Chernyaev	4-1	58
High winter gas demand met by Michigan's Blue Lake storage—Edward R. Scarpace	10-21	47
Safety		
NTSB: New pipeline industry safety standards needed	9-16	22
CONSTRUCTION, New Lines		
Crude		
Crude line poised for start-up in Gulf of Mexico	2-26	30
Natural Gas		
Common carrier gulf tele network set up	5-13	84
Mahogany pipeline installation proceeds	8-19	90
Spain gets first gas via Maghreb line	11-11	39
GasAndes pipeline construction moves to Chilean side	11-18	50
Gas flow to start in line from Algeria to Spain—Armel H. M. Morvan	12-2	50
CONSTRUCTION PRACTICES		
Line Pipe		
More precise pipe wall calculations developed—Alexander Aynbinder and Boris Taksa	4-29	57
PIPELINE REPORT. Tests confirm polyethylene pipe for high-pressure oil, gas service	9-9	52
Methods		
Directional drill keys completion of South China Sea pipeline—Dan Callnon and Ken Weeks	4-8	42
Seabed, currents posed problems in Gibraltar pipelay	12-2	57

	Date	Page
OPERATION AND DESIGN		
Analysis		
Line pressure stress affects MFL signals—Christian Hauge and David L. Atherton	3-18	92
System developed to predict waxy crude's breakaway yield stress—T. M. Williams, J. J. C. Hsu, and H. L. Patterson	12-16	35
Ultrasonic flowmeters undergo accuracy, repeatability tests—Terrence A. Grimley	12-23	101
Automation, Controls		
Segmented mapboard replaces drawing for pipeline control	4-8	46
Indian products pipeline gets scada system—Roberto Bettoli, Angela Iacovoni, and David Holden	9-30	45
Coatings		
PIPELINE REPORT. PIPELINE COATINGS—1: Mechanical properties critical to pipeline project economics—Kuruvila Varughese	9-9	41
PIPELINE COATINGS—Conclusion: Understanding mechanical properties critical to project economics—Kuruvila Varughese	9-16	40
Compressors		
NOx reduction gives compressor spark plugs long life	1-29	99
Compression decks extend production platform life—Ian Mackenzie	2-5	47
Compressor solves solution gas bottleneck—Ken J. Vargas and Frank Lowe	8-5	37
Corrosion		
Trials of flexible pipe in sour service reveal degradation—Moh'd J. Al-Maslamani	11-4	72
Group to develop ultrasonic tools for detecting pipeline stress corrosion	12-16	19
Design Concepts		
Nonlinear analysis method can improve pipeline design—Alexander Aynbinder, Boris Taksa, and Patrick Dalton	3-25	76
Simulator predicts transient flow for Malaysian subsea pipeline—Anis A. Inayat-Hussain, Mohd Sapihie Ayob, and Ahmad Bazlee Mat Zain	4-15	62
OFFSHORE PETROLEUM OPERATIONS. Deepwater pipelay prospects prompt study of mechanical connectors—Warren R. True	5-6	72
More accurate method devised for tank-bottom annular plate design—Tianyun Wu	5-20	81
Offshore risers must be designed to resist pipeline movement—B. K. Jinsi	6-17	42
Troll, Haltenpipe showcase offshore pipelay advances—Frank Blaker, Erling Gjertveit, and Jostein Breivik, (Den norske stats oljeselskap a.s. (Statoil))	7-29	89
Inspection		
Ekofisk pipelines undergo requalification—Tor G. Tangeland and Leif Collberg	9-23	82
MFL technology moving from transmission to distribution markets	11-25	72
Maintenance		
Line pressure stress affects MFL signals—Christian Hauge and David L. Atherton	3-18	92
Leak detection by mass balance effective for Norman Wells line—Jim C. P. Liou	4-22	69
By-pass pig passes test for two-phase pipelines—H. L. Wu, G. van Spronsen, E. H. Klaus, and D. M. Stewart	10-14	73
Trials of flexible pipe in sour service reveal degradation—Moh'd J. Al-Maslamani	11-4	72
System developed to predict waxy crude's breakaway yield stress—T. M. Williams, J. J. C. Hsu, and H. L. Patterson	12-16	35
Meters, Metering		
Metering, other equipment head for Colombian gas pipeline	10-7	79
Ultrasonic flowmeters undergo accuracy, repeatability tests—Terrence A. Grimley	12-23	101
MULTIPHASE FLOW		
By-pass pig passes test for two-phase pipelines—H. L. Wu, G. van Spronsen, E. H. Klaus, and D. M. Stewart	10-14	73
Offshore		
Simulator predicts transient flow for Malaysian subsea pipeline—Anis A. Inayat-Hussain, Mohd Sapihie Ayob, and Ahmad Bazlee Mat Zain	4-15	62
OFFSHORE PETROLEUM OPERATIONS. Deepwater pipelay prospects prompt study of mechanical connectors—Warren R. True	5-6	72
Offshore risers must be designed to resist pipeline movement—B. K. Jinsi	6-17	42
Troll, Haltenpipe showcase offshore pipelay advances—Frank Blaker, Erling Gjertveit, and Jostein Breivik, (Den norske stats oljeselskap a.s. (Statoil))	7-29	89
Ekofisk pipelines undergo requalification—Tor G. Tangeland and Leif Collberg	9-23	82
Another pipelay vessel for Gulf of Mexico	10-28	81
Gas flow to start in line from Algeria to Spain—Armel H. M. Morvan	12-2	50
Seabed, currents posed problems in Gibraltar pipelay	12-2	57
Storage		
Storage project overcomes industry-standard gap—Robert G. Haley	1-1	47
Gravimeter yields rock density for cavern during operations—Stefan Folle and Olaf Rolfs	1-22	40
Cleanup under way at oil storage site in Netherlands	3-11	44
More accurate method devised for tank-bottom annular plate design—Tianyun Wu	5-20	81
Here are guidelines for inspecting AST internals—Steven Caruthers	7-8	52
PIPELINE REPORT. Automated tank cleaning yields nearly 100% hydrocarbons—Jan S. Hummer	9-9	47
High winter gas demand met by Michigan's Blue Lake storage—Edward R. Scarpace	10-21	47
Technology assists in testing, improving storage tank cathodic protection	10-21	55
Reference value developed for mechanical integrity of storage caverns—Fritz Crotogino	10-28	76
OTHER TRANSPORTATION		
Tankers and Barges		
Adnoc to get first in series of LNG tankers	1-15	22
Tanker ownership reflects fear of penalties	1-15	23
LNG shipments in 1994 set records	1-15	45
Grounded tanker may cause U.K.'s largest oil spill	2-26	34
U.K. counts cost of oil spill from Sea Empress	3-4	41
SE Asia spurs products tanker boom	7-22	32
U.S. logs 7 years without massive oil spill	8-19	36
Taiwan firm eyes big tanker fleet	9-2	28
Drewry: Tanker industry faces scrapping crisis	11-18	30
Terminals		
Hibernia transshipment terminal slated	9-16	30
TRANSPORTATION, GENERAL		
General		
Seaway's 20 in. line resumes shipments	5-27	20
Louisiana chalk NGL pipeline venture eyed	8-19	30
Proposed Lines and Expansion		
CATS line plans terminal expansion	2-12	22
U.S., Canadian pipeline projects advancing	2-19	22
Columbia seeks to expand pipeline	3-4	36
U.S.-Canadian pipeline slates novel open season	3-25	33
Construction progressing on GasAndes pipeline	4-8	28
Rocky Mountain gas pipelines to expand	4-8	29
Seaway expansion poised for service	4-29	27
Seaway to lease SPR crude for 30 in. line fill	5-13	34
Oil gathering system planned for gulf	5-20	29
Texaco proposes central gulf gas pipeline	5-27	24
Plans shaping up for gas line from W. Canada to Chicago	6-17	28
Plans advance for Caspian pipeline	6-24	28
Express pipeline proposal wins Ottawa approval	7-1	42
El Paso acquisition to create coast to coast gas system	7-1	44
TransCanada revises expansion plan	7-8	33
California's Pacific Pipeline wins key approvals	7-15	20
California crude transport proposals cover wide range	7-15	21
Group slates gas pipeline system in central gulf	7-15	23
Sonat plans gulf gas line	8-5	21
Interconnector gets second supply deal	8-5	30
Group slates gas gathering pipeline systems off Alabama	8-19	32
NOVA, CMS units plan Argentina-Chile integrated gas pipeline/power project	9-9	28
Work starts on Rockies pipeline conversion	9-9	32
Transco slates pipeline expansion in gulf	9-16	20
Louisiana chalk gas play to get another pipeline	9-16	21
Second Sable Island gas pipeline proposed	9-16	30
Los Angeles rejects third crude oil pipeline	10-14	32
Chevron, IPC join forces on Papua New Guinea-Queensland gas pipeline project	10-21	28
Gulf gas gathering pipeline scheduled	10-28	28
ANR proposes gulf loop line project	11-4	32

	Date	Page
U.K. Interconnector work under way	11-25	34
Wyoming independents try to block Express line completion	12-9	24
Caspian pipeline takes major step forward	12-16	22
Pollution Control		
Grounded tanker may cause U.K.'s largest oil spill	2-26	34
U.K. counts cost of oil spill from Sea Empress	3-4	41
European pipelines have costly spills	3-4	69

REFINING

ALKYLATION		
Pilot-plant results in on fixed-bed alkylation process	4-1	69
Solid-acid alkylation process development is at crucial stage—Pradip Rao and Sorab R. Vatcha	9-9	56
Analysis of alky unit DIB exposes design, operating considerations—Donald F. Schneider, Joseph Musumeci and Rick Chavez	9-30	41
ANALYSIS, Methods of		
REFINING REPORT. Complexity index indicates refinery capability, value—Daniel Johnston	3-18	74
New equations predict boiling point from viscosity, gravity—Jose Vicente Gomez	10-7	92
CATALYSIS, CATALYSTS (Also see Cracking, Catalytic)		
REFINING REPORT. Catalyst handling, disposal become more important in environmental era	3-18	64
Simple tests determine catalyst regeneration temperature	4-29	62
NPRA Q&A—1: Refiners focus on FCC catalysts at Q&A meeting	6-3	49
NPRA Q&A—2: Catalyst issues stir interest at technology meeting	6-24	45
NPRA Q&A—Conclusion: Process control strategies key to refining operations	7-22	45
WORLDWIDE CATALYST REPORT	10-14	43
WORLDWIDE CATALYST REPORT. Refiner details 'best practices' approach to catalyst selection—Ashok S. Krishna, John H. Arndt, Chris W. Kuehler, and Dave C. Kramer	10-14	44
WORLDWIDE CATALYST REPORT. Experts reveal catalyst-selection methodologies	10-14	50
WORLDWIDE CATALYST REPORT. Three-step procedure optimizes FCC slide-valve differential pressure—Ray Fletcher	10-14	56
Downstream, catalyst companies ally with gas-to-liquids process developer—Anne K. Rhodes	12-30	85
COGENERATION		
Texas JV to burn residue gas in cogen unit	9-23	43
REFINERY TECHNOLOGY TRENDS. Gasification, polygeneration capture interest of refiners—L. R. Aalund	12-9	40
REFINERY TECHNOLOGY TRENDS. Italian IGCC project sets pace for new refining era—Roberto Del Bravo, Francesco Starace, Igino M. Chellini, and Paolo V. Chiantore	12-9	43
COKING		
Kansas refinery starts up coke gasification unit—Anne K. Rhodes	8-5	31
COMPUTERS/MICROCOMPUTERS		
Integrated process plant management system proliferating—Anne K. Rhodes	10-7	31
Neural network model predicts naphtha cut point—Issam Wadi	11-25	67
CONSTRUCTION		
WORLDWIDE CONSTRUCTION. Refineries—Michelle Williamson	4-8	53
Operator/E&C relationship explored in Europe	4-29	63
COSTIMATING, Quarterly (by Gary Farrar)		
Quarterly Costimating: Yearly refinery construction indexes listed for 68 years	1-1	52
Quarterly Costimating: How indexes have risen	4-1	72
Quarterly Costimating: How indexes have changed	7-1	124
Quarterly Costimating: Equipment costs rise moderately	10-7	100
COSTS		
Simple steps help minimize costs, risks in project contracts—Jorge A. Camps	1-22	32
REFINING REPORT. Complexity index indicates refinery capability, value—Daniel Johnston	3-18	74
Economic forces push down selling prices of U.S. refineries	3-25	82
Key work practices lower refinery operating costs	4-8	50
COSTS (Nelson-Farrar Cost Indexes) by Gary Farrar		
Nelson-Farrar Cost Indexes	1-1	40
Nelson-Farrar Cost Indexes	2-5	53
Nelson-Farrar Cost Indexes	3-4	54
Nelson-Farrar Cost Indexes	4-1	68
Nelson-Farrar Cost Indexes	5-6	116
Nelson-Farrar Cost Indexes	6-3	48
Nelson-Farrar Cost Indexes	7-1	123
Nelson-Farrar Cost Indexes	8-5	44
Nelson-Farrar Cost Indexes	9-2	80
Nelson-Farrar Cost Indexes	10-7	91
Nelson-Farrar Cost Indexes	11-4	89
Nelson-Farrar Cost Indexes	12-2	67
CRACKING, Catalytic		
Post-riser quench improves FCC yields, profitability—George P. Quinn and Michael A. Silverman	1-15	33
FCC O_2 ENRICHMENT—PART 1: Proper choice of O_2 supply enhances enrichment benefits—Raghu Menon, Satish Tamhankar, Ting Chou, Satish Tamhankar, Ram Ramachandran, Randall Hull, and Richard Watson	2-26	54
FCC O_2 ENRICHMENT—Conclusion: Enrichment can decrease NOx, SOx formation—Satish Tamhankar, Raghu Menon, Ting Chou, Ram Ramachandran, Randall Hull, and Richard Watson	3-4	60
FCC REVAMP—1: Feed injection, riser-termination systems replaced in fast-track revamp—B. F. Dahlstrom, Kevin Ham, Myron E. Becker, Tom P. Hum, Larry Lacijan, and Tom Lorsbach	7-29	83
FCC REVAMP—Conclusion: Canadian refiner gets 2-year payout with FCC revamp—B. F. Dahlstrom, Kevin Ham, Myron E. Becker, Tom P. Hum, Larry Lacijan, and Tom Lorsbach	8-12	77
WORLDWIDE CATALYST REPORT. Three-step procedure optimizes FCC slide-valve differential pressure—Ray Fletcher	10-14	56
CRUDES		
Chemical, mechanical treatment options reduce hydroprocessor fouling—Bernard C. Groce	1-29	81
Gasification processes variety of problem feedstocks and wastes—David L. Heaven	5-27	49
GUIDE TO WORLD CRUDES. Preliminary assay reveals quality of Mars blend—Anne K. Rhodes	6-10	67
DISTILLATION (also see Fractionation)		
New salt product dries distillate streams, eliminates haze—Jack W. Barnett	4-15	68
EQUIPMENT		
New HF detector accepted for use by refining consortium	2-19	46
New program sizes pressure-relief drums—Alejandro Anaya Durand, Raul Abrajan Osorio, and Rogelio Hernandez Suarez	5-6	104
FORECASTS, TRENDS, STATISTICS, SURVEYS		
THE ROLE OF OXYGENATES IN GASOLINE. U.S. gasoline plagued by economic, technical uncertainty	1-8	29
Secondary processes key to gauging U.S. refining capability—Tancred Lidderdale, Nancy Masterson, and Nicholas Dazzo	2-5	54
Shakeout gathers momentum in Europe's refining sector—David Knott	3-25	21
Economic forces push down selling prices of U.S. refineries	3-25	82
WORLDWIDE CONSTRUCTION. Refineries—Michelle Williamson	4-8	53
INDIA'S ENERGY DEVELOPMENT. India's refining prospects linked to economic growth—Everett Lewis	6-10	43
Big need seen for East of Suez refining	6-17	24
U.S. refiners home in on profits amid near term uncertainties—A. D. Koen	7-1	27
U.S. refiners find benefits in JVs with foreign partners—Anne Rhodes and A. D. Koen	7-22	16
JAPAN'S EVOLVING DOWNSTREAM. Japan's refiner/marketers headed for major shakeout	8-26	31
JAPAN'S EVOLVING DOWNSTREAM. Cooperation needed for securing Japan's imports of refined products from neighbors—Yasuo Koyama, Yoshike Ogawa	8-26	41
WORLDWIDE CONSTRUCTION. Refineries—Marilyn Radler	9-30	55
U.S. refining margins reached nadir in 1995, upturn expected	10-28	80
U.S. inland refiners becoming more reliant on imported crude—Robert J. Hewitt, Kenneth D. Miller, Blake T. Eskew, and Steven J. Kelly	12-9	20

	Date	Page
WORLDWIDE REFINING REPORT. Distillation capacity exceeds 76 million b/d, hydrotreating surges—Anne K. Rhodes	12-23	41
WORLDWIDE REFINING REPORT. Worldwide refining survey—Marilyn Radler	12-23	49
FRACTIONATION (also see Distillation)		
Neural network model predicts naphtha cut point—Issam Wadi	11-25	67
FUELS, Diesel		
Natural gas-diesel process headed for market	3-4	43
Low sulfur diesel controversy continues—Roger L. Leisenring Jr.	4-22	75
Global gasoline, diesel quality continues to improve	9-16	47
FUELS, Gasoline		
Wood Mackenzie assesses effect of new EC auto fuel rules on refiners	3-25	22
CARB: Gasoline shortages could ease California rules	5-6	42
Price, quality controls alter Saudi fuels sector	7-29	103
Global gasoline, diesel quality continues to improve	9-16	47
FUELS, Reformulated		
THE ROLE OF OXYGENATES IN GASOLINE. U.S. gasoline plagued by economic, technical uncertainty	1-8	29
THE ROLE OF OXYGENATES IN GASOLINE. Toxicity, emissions test results in for RFG	1-8	34
THE ROLE OF OXYGENATES IN GASOLINE. General Motors gives RFG the OK	1-8	42
THE ROLE OF OXYGENATES IN GASOLINE. Unocal's patent of gasoline formulas is complex—Robert W. Strozier	1-8	43
California refinery RFG modifications finished by Unocal	3-18	37
U.S. refiners face more challenges in wake of RFG introduction—Patrick Crow	4-22	23
Refiner upgrades to meet world's toughest gasoline specs—Anne K. Rhodes	9-23	78
HYDROREFINING		
Grangemouth hydrofiner near start-up	1-1	32
HYDROTREATING		
Chemical, mechanical treatment options reduce hydroprocessor fouling—Bernard C. Groce	1-29	81
INSTRUMENTATION, Control		
Fiber optic sensing detects hot spots in methane reformers	2-19	47
Fieldbus technology passes beta tests at Texas plant	5-20	78
Integrating process design and control improves plant operability	7-15	67
MAINTENANCE		
FCC O_2 ENRICHMENT—Conclusion: Enrichment can decrease NOx, SOx formation— Satish Tamhankar, Raghu Menon, Ting Chou, Ram Ramachandran, Randall Hull, and Richard Watson	3-4	60
Use of video camera expedites tank inspection procedure—Philip E. Myers	11-11	83
MANAGEMENT		
Key work practices lower refinery operating costs	4-8	50
Oil inventories should be based on margins, supply reliability—Kevin Waguespack and Brian D. Cantor	7-8	39
Reliability program inproves refinery sulfur plant operations—John R. Braithwaite	9-2	83
Integrated process plant management system proliferating—Anne K. Rhodes	10-7	31
WORLDWIDE CATALYST REPORT. Refiner details 'best practices' approach to catalyst selection—Ashok S. Krishna, John H. Arndt, Chris W. Kuehler, and Dave C. Kramer	10-14	44
PLANT CONSTRUCTION, New Refineries		
Big refinery planned in Pakistan	3-11	43
REFINING REPORT. Siberian company starts up modular refinery	3-18	68
Uzbeki refinery is half way to completion	8-26	57
WORLDWIDE CONSTRUCTION. Refineries—Marilyn Radler	9-30	55
PLANT EXPANSION		
Conoco expands Oklahoma refinery	3-11	42
REFINING REPORT. Venezuelan refiner completes $2.5-billion refinery expansion—Anne K. Rhodes	3-18	51
Esso, OMW to combine Karlsruhe refineries	5-27	25
E. Europe refiners let big contracts	8-12	30
PLANT PRACTICES		
FCC O_2 ENRICHMENT—PART 1: Proper choice of O_2 supply enhances enrichment benefits—Raghu Menon, Ting Chou, Satish Tamhankar, Ram Ramachandran, Randall Hull, and Richard Watson	2-26	54
REFINING REPORT. Catalyst handling, disposal become more important in environmental era	3-18	64
New salt product dries distillate streams, eliminates haze—Jack W. Barnett	4-15	68
New program sizes pressure-relief drums—Alejandro Anaya Durand, Raul Abrajan Osorio, and Rogelio Hernandez Suarez	5-6	104
Oil inventories should be based on margins, supply reliability—Kevin Waguespack and Brian D. Cantor	7-8	39
FCC REVAMP—1: Feed injection, riser-termination systems replaced in fast-track revamp—B. F. Dahlstrom, Kevin Ham, Myron E. Becker, Tom P. Hum, Larry Lacijan, and Tom Lorsbach	7-29	83
Analysis of alky unit DIB exposes design, operating considerations—Donald F. Schneider, Joseph Musumeci and Rick Chavez	9-30	41
Integrated process plant management system proliferating—Anne K. Rhodes	10-7	31
Unique Sardinian refinery focuses on third-party crude processing—L. R. Aalund	10-21	16
Italy refinery gasification project to make electricity, steam, and H_2 from tar—L. R. Aalund	10-21	33
REFINERY TECHNOLOGY TRENDS. Gasification, polygeneration capture interest of refiners—L. R. Aalund	12-9	40
REFINERY TECHNOLOGY TRENDS. Italian IGCC project sets pace for new refining era—Roberto Del Bravo, Francesco Starace, Igino M. Chellini, and Paolo V. Chiantore	12-9	43
PLANTS, General		
Operator/E&C relationship explored in Europe	4-29	63
Reconfiguration set at Sun plants in S. Philadelphia	6-24	26
REFINERY TECHNOLOGY TRENDS. Europe's refining industry woes detailed at London meeting—Anne Rhodes	12-9	52
POLLUTION CONTROL		
In situ remediation cleans hydrocarbon-contaminated soil	8-26	56
Flameless thermal oxidation reduces emissions at California refinery—Howard H. Hohl	11-4	77
POWER PLANTS		
Italy refinery gasification project to make electricity, steam, and H_2 from tar—L. R. Aalund	10-21	33
California tech center plays major role in gasification advances	10-21	36
PROCESSES		
Post-riser quench improves FCC yields, profitability—George P. Quinn and Michael A. Silverman	1-15	33
Secondary processes key to gauging U.S. refining capability—Tancred Lidderdale, Nancy Masterson, and Nicholas Dazzo	2-5	54
New process removes inorganic chlorides from reformate—Ed Alverson and Andrew J. Mullenix	5-20	75
Gasification processes variety of problem feedstocks and wastes—David L. Heaven	5-27	49
Integrating process design and control improves plant operability	7-15	67
Kansas refinery starts up coke gasification unit—Anne K. Rhodes	8-5	31
Solid-acid alkylation process development is at crucial stage—Pradip Rao and Sorab R. Vatcha	9-9	56
Work starts on S. African TAME unit	10-28	24
REFINERY TECHNOLOGY TRENDS. European refiners must seek creative processes to justify heavy-ends projects—Phil Hunt	12-9	53
Downstream, catalyst companies ally with gas-to-liquids process developer—Anne K. Rhodes	12-30	85
PUMPS		
Refinery experience provides guidelines for centrifugal pump selection—Gary R. Martin	3-11	80
REFORMING, Catalytic		
New process removes inorganic chlorides from reformate--Ed Alverson and Andrew J. Mullenix	5-20	75
RESID/HEAVY OIL PROCESSING		
REFINERY TECHNOLOGY TRENDS. European refiners must seek creative processes to justify heavy-ends projects--Phil Hunt	12-9	53
SAFETY		
Processing plants reduce workplace injuries, illnesses	8-26	57
STORAGE		
Here are guidelines for inspecting AST internals—Steven Caruthers	7-8	52

	Date	Page
Technology assists in testing, improving storage tank cathodic protection	10-21	55
Use of video camera expedites tank inspection procedure—Philip E. Myers	11-11	83
SULFUR (Also see Crudes; Corrosion)		
WORLDWIDE CONSTRUCTION. Sulfur—Michelle Williamson	4-8	84
Low sulfur diesel controversy continues—Roger L. Leisenring Jr.	4-22	75
WORLDWIDE GAS PROCESSING. World sulfur poduction—Michelle Williamson	7-1	110
Reliability program inproves refinery sulfur plant operations—John R. Braithwaite	9-2	83
WORLDWIDE. CONSTRUCTION. Sulfur—Marilyn Radler	9-30	85
TREATING (Also see Crudes)		
Carbon adsorption system protects LPG storage sphere—Carol A. Gothenquist and Karen M. Rooker	7-1	122
WASTE DISPOSAL		
In situ remediation cleans hydrocarbon-contaminated soil	8-26	56
Texas facility treats, recycles refinery, petrochemical wastes	9-16	49
Microwave-based process recovers oil from sludge at Texas site	12-2	66

PETROCHEMICAL

	Date	Page
ETHYLENE		
PETROCHEMICAL REPORT. Survey	5-13	62
Union Texas slates ethylene unit at Geismar	11-18	25
FORECASTS, TRENDS, STATISTICS, SURVEYS		
SE Asia's petrochemical growth threatens exports form West	1-22	27
Petrochemical cycle again dips to low point	1-22	27
Strong styrene growth foreseen	2-12	34
WORLDWIDE CONSTRUCTION. Petrochemicals—Michelle Williamson	4-8	68
PETROCHEMICAL REPORT. World ethylene capacity increased marginally in 1995—Anne K. Rhodes	5-13	49
PETROCHEMICAL REPORT. Polyolefins operating rates to improve in 1997/98—Anne K. Rhodes	5-13	56
PETROCHEMICAL REPORT. Survey	5-13	62
World methanol market to soften in 1998	7-12	24
Global petrochemical R&D focus on projects that provide a return—David Knott	8-26	17
U.S. petrochem profits to peak in 2002?	9-2	38
WORLDWIDE CONSTRUCTION. Petrochemicals—Marilyn Radler	9-30	67
EIA: Low propane stocks spur panic buying, price hike	12-16	20
INSTRUMENTATION, Control		
Fiber optic sensing detects hot spots in methane reformers	2-19	47
PLANTS		
Texas petrochemical expansions on tap	1-15	58
PETROCHEMICAL REPORT. Revamp of Ukraine VCM plant will boost capacity, reduce emissions—Anne K. Rhodes	5-13	60
Korean aromatics plant commissioned	8-19	80
Mobil, Pequiven slate Venezuelan petrochem plant	10-14	23
Mexican petrochemical plant sale revised	10-21	19
New Borealis unit uses metallocene catalyst	12-30	33
PROCESSES		
Membrane system recovers, recycles propylene from polymer production	2-12	51
New ammonia process, catalyst proven in Canadian plant—Anne K. Rhodes	11-18	37
Enhanced solvent recovery process boosts PTA production, saves energy	12-16	44
PRODUCTS		
Real-time optimization boosts capacity of Korean olefins plant—Seongkyu Yoon, Surajit Dasgupta, and Gerardo Mijares	6-17	36
Enhanced solvent recovery process boosts PTA production, saves energy	12-16	44
STORAGE		
Storage project overcomes industry-standard gap—Robert G. Haley	1-1	47

INTERNATIONAL

	Date	Page
ABU DHABI		
Adnoc to get first in series of LNG tankers	1-15	22
Giant gas complex key to Abu Dhabi petroleum strategy	8-5	27
AFRICA (General)		
Benue trough and the mid-African rift system—David Thomas	1-29	102
Busy year predited for West African E&P	3-4	82
Project off Ghana gets support from U.S. Exim bank	4-15	29
Exploratory drilling to start in eastern Tanzania	4-29	73
Opportunities seen in three petroleum systems in Niger—Mamadou Zanguina, Alain Bruneton, and Robert Gonnard	5-6	126
Sasol schedules major upgrade of synfuel plant	5-13	44
Doors open to exploration in southern Africa	6-24	22
Asia's new markets boost world energy use	7-8	28
Exxon Congo PSC expands its West Africa portfolio	8-26	30
Operators ramp up activity off Namibia	10-21	63
Work starts on S. African TAME unit	10-28	24
Oil and gas shows numerous in Nama basin, southern Africa—Malcolm Walter, Roger Swart, and Roger Summons	11-25	76
ALGERIA		
Total group to develop Algerian gas, liquids	2-5	46
Algeria's Ghadames basin gets significant Triassic discovery	7-22	58
Algerian peace at hand as BP starts project	9-16	25
Gas flow to start in line from Algeria to Spain—Armel H. M. Morvan	12-2	50
ANGOLA		
Angola to seek foreign partners for downstream operations	6-24	23
ARGENTINA		
Construction progressing on GasAndes pipeline	4-8	28
Argentine gas plant starts up	7-8	57
Spirited bidding seen for Falklands license round	7-22	32
NOVA, CMS units plan Argentina-Chile integrated gas pipeline/power project	9-9	28
Relinquishments in Argentina will boost exploration interest—Juan Carlos Pucci	9-30	103
Record extended reach well drilled off Tierra del Fuego	10-14	85
U.K., Argentina eye S. Atlantic tracts	12-30	31

Conflicting carrier capacity trends emerging in Japan	12-16	14
Qatar ships first LNG to Japan, signs accord	12-30	28
JAVA		
Java due more geothermal power	1-22	28
JORDAN		
Anadarko acquires tract in Jordan	3-11	38
KOREA		
Real-time optimization boosts capacity of Korean olefins plant—Seongkyu Yoon, Surajit Dasgupta, and Gerardo Mijares	6-17	36
Korean aromatics plant commissioned	8-19	80
JAPAN'S EVOLVING DOWNSTREAM. Cooperation needed for securing Japan's imports of refined products from neighbors—Yasuo Koyama, Yoshike Ogawa	8-26	41
BP hikes global acetyls capacity	10-21	25
Ulsan refinery world's largest	12-30	33
KUWAIT		
Kuwait renews BP technology accord	8-12	38
LATIN AMERICA (General)		
Mackay: Latin America offshore boom ahead	12-2	34
LATVIA		
Big Latvian seaport undergoing expansion—A. D. Koen	4-22	38
LIBYA		
House measure would expand U.S. sanctions	4-1	33
MALAYSA		
Simulator predicts transient flow for Malaysian subsea pipeline—Anis A. Inayat-Hussain, Mohd Sapihie Ayob, and Ahmad Bazlee Mat Zain	4-15	62
Petronas goal: increase foreign income	6-24	23
IPC wells boost reserves off Malaysia	7-8	36
First production from Malay-Thai JDA eyed	11-4	43
MEXICO		
Dispute near settlement in Tabasco blockade	2-19	29
Mexicali to get Mexico's first private gas distribution service	4-8	25
Mexico's energy capital spending to surge	4-8	25
U.S.-Mexico boundary treaty is dead without support	4-22	30
U.S.-Mexico dispute simmering in gulf	4-22	30
Blasts cripple Mixico's top gas complex	8-5	22
Open access on Mexican gas lines imminent	8-26	30
Pemex grappling with new woes as privatization inches ahead	9-9	25
Mexicali natural gas franchise bid raises new questions—George Baker	9-9	27
Mexican petrochemical plant sale revised	10-21	19
Mexico's basins could provide niches for various sized firms—George Baker and James Lee Wilson	11-18	53
Pemex under fire after tank farm blast	11-25	34
MIDDLE EAST (General)		
OPPORTUNITIES IN THE MIDDLE EAST. Many new ventures in the Middle East focus on old oil, gas fields—Manouchehr Takin	5-27	31
OPPORTUNITIES IN THE MIDDLE EAST. OPEC Middle East plans for rising demand amid uncertainty—Ibrahim A.H. Ismail	5-27	38
MONGOLIA		
Discoveries fuel optimism in Mongolia	10-28	90
MOZAMBIQUE		
Scimitar to explore Mozambique acreage	8-19	39
BP secures Mozambique exploration deal	10-7	39
NAMIBIA		
Operators ramp up activity off Namibia	10-21	63
NETHERLANDS		
Cleanup under way at oil storage site in Netherlands	3-11	44
Amoco slates Dutch gas storage project	10-21	29
Elf first to use 'green' gas flare burner	12-9	30
NIGER		
Opportunities seen in three petroleum systems in Niger—Mamadou Zanguina, Alain Bruneton, and Robert Gonnard	5-6	126
NIGERIA		
Protests linger over Shell Nigerian connection	1-15	25
Benue trough and the mid-African rift system—David Thomas	1-29	102
Nigerian state firm's shortfall feared	4-22	32
Shell plans return to Nigerian region if safety assured	5-13	42
Italy's ENEL cancels Nigeria LNG contract	12-30	28
NORTH SEA		
Statoil tests N. Sea oil, plans other projects	1-1	31
Norway looks to natural gas for greater role in energy mix—David Knott	1-8	16
Norwegian Sea development project advances	1-15	58
BP, Shell slate big U.K. North Sea development	1-22	21
Oslo offers licenses in North, Norwegian seas	1-29	36
Receipt plant for North Sea gas completes second train—John R. Oliver	1-29	87
More North Sea fields marked for development	2-19	58
1998 seen peak year for NW Europe oil flow	2-26	29
New rigs scheduled for N. Sea assignments	3-18	42
BP plans to sell marginal oil fields in U.K. North Sea	3-25	34
North Sea FPSO arrives in U.K. for completion	4-15	31
North Sea Britannia platform taking shape	4-29	24
N. Sea operations focus on safety, innovations	5-13	38
U.K. plans campaign for activity on fallow tracts in North Sea	5-13	39
Norsk Hydro first with wellbore innovation	5-20	34
More North Sea oil fields due on stream	5-26	28
Brent spar experience haunts N. Sea platform abandonments—David Knott	6-3	18
U.K. North Sea operators see plenty of life left in mature play	6-3	21
Idle capacity cited in U.K. North Sea oil lines	6-24	22
Statoil assumes operatorship of big Troll field	7-1	40
Ranger starts Pierce production test	7-15	23
Brent spar disposal requires new approach	7-22	20
Marathon alliance to develop Brae satellites	7-22	29
Danish oil field's prospects buoyed	7-22	32
Swath vessel design fails tests	8-5	30
Curlew project tops U.K. North Sea action	8-12	27
Elf abandons NE Frigg facilities	8-12	28
Brent spar disposal options unveiled	8-19	39
OFFSHORE NORTHERN EUROPE. North Sea development action brisk; plays expand elsewhere off Europe—David J. Knott	8-19	45
OFFSHORE NORTHERN EUROPE. Shell chooses floating units for Central N. Sea projects—Robert Weener	8-19	58
OFFSHORE NORTHERN EUROPE. Oryx squeezes extra production from mature U.K. N. Sea fields—Martin Cole	8-19	71
New Troll platform tops North Sea action	8-26	28
Deepwater, marginal projects offshore focus—David Knott	9-2	29
Armada platform topsides takes shape in U.K. yard	9-2	29
Troll reserves estimate hiked, platform slated	9-2	32
Ekofisk pipelines undergo requalification—Tor G. Tangeland and Leif Collberg	9-23	82
Satellite subsea development starts up in North Sea	9-23	82
Operators mark development progress in U.K. North Sea	10-14	38
British Gas claims record-length well	10-21	28
Tight North Sea rig market to persist	10-28	24
Shell/Esso wins nod to develop Mallard field	10-28	29
Simulation forecasts complex flow streams from Ekofisk—Fatos Cecen Arnes, Henning Lillejord, and Andrew Vieler	10-28	69
NW Europe's offshore operators filling in development puzzle—David Knott	11-11	27
Kingfisher development nod tops action in U.K. North Sea	11-18	28
DESULFATING INJECTION WATER—1: Membranes solve North Sea waterflood sulfate problems—Roy Davis, Ian Lomax, and Mark Plummer	11-25	59
Offshore rig market getting tighter off Northwest Europe—David Knott	12-2	25
Brent field redevelopment project marks progress	12-2	30
ARCO starts up U.K. Trent and Tyne fields	12-2	32
DESULFATING INJECTION WATER—2: Membrane technology works on North Sea platform—Keith O'Donnell	12-2	58
British Gas nears completion of Armada field platform	12-16	18

FEDERAL ENERGY REGULATORY COMMISSION (FERC)

Gasification plant threatened by FERC action	1-8	24
FERC offers pipeline rate flexibility	2-19	23
Gas group seeks improved complaint process	6-10	34
FERC approves GISB pipeline standards	7-29	44
FERC proposes amending rules for interstate capacity secondary market	8-12	34
NATURAL GAS AND ELECTRICITY. Gas experience can steer power away from deregulation snags—Jeffrey J. Leitzinger	8-12	49
NATURAL GAS AND ELECTRICITY. Gas and power industries linking as regulation fades—Stephen W. Bergstrom and Terry Callender	8-12	59
FERC first: oil line prebuild tariff approval	9-23	40
GRI asks FERC for new funding method for RD&C	12-16	19

FEDERAL TRADE COMMISSION (FTC)

FTC presses campaign on marketers' 'deceptive' gasoline ads	9-23	44

TAXATION

RUSSIA'S PETROLEUM PROGRESS. Changing tax system challenges producers and refiners in Russia—Eugene M. Khartukov	3-25	41
ANATOMY OF A LEGISLATIVE VICTORY. Deepwater royalty relief product of 3-year U.S. political effort—Randall E. Davis and Shirley Neff	4-1	45
European countries continue to increase fuel taxes	4-1	70
API girds for Clinton greenhouse tax battle	11-18	24

ORGANIZATIONS

AMERICAN GAS ASSOCIATION (AGA)

U.S. gas pipelines shift construction focus	5-22	23
First year of AGA's weekly storage survey suggests useful patterns—Warren R. True	7-17	50
AGA: Gas could reduce U.S. oil import volume	10-23	38

AMERICAN PETROLEUM INSTITUTE (API)

High cost seen in added U.S. environmental rules	4-3	30
API details loss of jobs in U.S. petroleum industry	6-19	25
API: Looking for a bargain? Buy U.S. gasoline	9-18	33
API session focuses on U.S. motor fuels	11-27	32

INTERSTATE NATURAL GAS ASSOCIATION OF AMERICA (INGAA)

Ingaa details ways to improve gas grid integration	3-20	122

OFFSHORE TECHNOLOGY CONFERENCE (OTC)

OTC presentations highlight spread of subsea technology	5-8	19

ORGANIZATION OF PETROLEUM EXPORTING COUNTRIES (OPEC)

Gabon protests OPEC fee; withdrawal reported	1-16	26
OPEC oil production down a little	2-13	25
Yamani predicts world crude price likely to falter again in 1995	4-17	26
OPEC oil production slips during March	4-24	42
OPEC topics: Iranian embargo, weak dollar	5-22	27
OPEC retains quotas, warns of November tremors	6-26	20
Critical oil price decision seen for OPEC members	11-13	42
OPEC defers tough decisions at Vienna meeting	12-4	38

FCC O_2 ENRICHMENT—Conclusion: Enrichment can decrease NOx, SOx formation	3-4	60
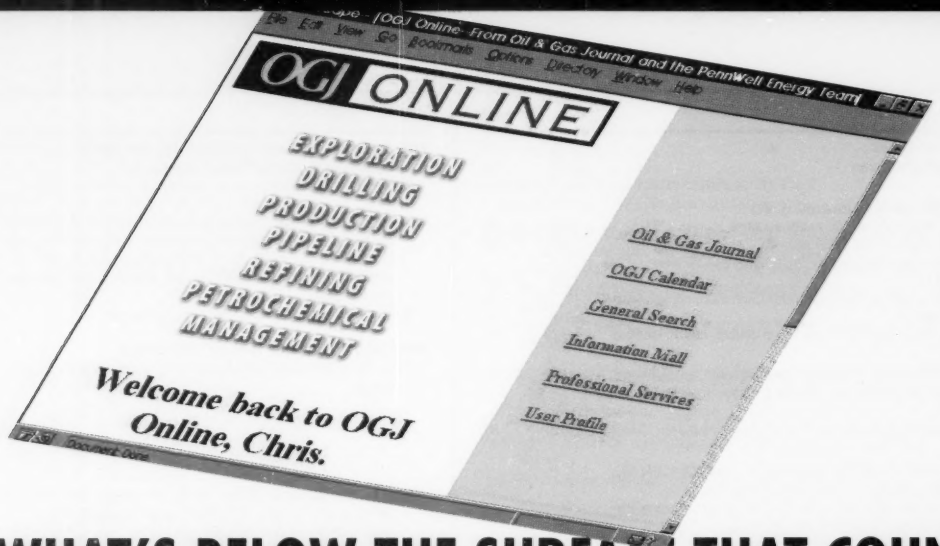
WEAVER, CHRIS (Baker Oil Tools); AIELLO, PETER (Import Tool Corp. Ltd.); and SUTHERLAND, JAMIE (Shell Canada Ltd.)		
Thin-walled liner equipment cuts costs on well deepening project	8-26	46
WEAVER, JIMMIE D., PARKER, MARK A., KING, DWAIN G., and NGUYEN, PHILIP D. (Halliburton Energy Services)		
Thermoplastic film prevents proppant flowback	2-5	60
WEBSTER, DAN, and MOON, JEFF (EG&G Chandler Engineering)		
Updated lab equipment can improve cement slurry testing	1-29	97
WEDDLE, CURTIS, LUO, YUEJIN, GIBSON, ALLAN, MOUNTFORD, CARL, and HIBBERT, TED (BP Exploration)		
Well control procedures developed for multilateral wells	11-4	84
WEEKS, KEN (KRW Associates); and CALLNON, DAN (Cherrington Corp.)		
Directional drill keys completion of South China Sea pipeline	4-8	42
WEENER, ROBERT (Shell U.K. Exploration & Production)		
OFFSHORE NORTHERN EUROPE. Shell chooses floating units for Central N. Sea projects	8-19	58
WEST, JIM (Journal Staff)		
Something old, something new	1-1	19

	Date	Page
More letters from Lagos	2-19	15
Coping with gasoline prices	6-24	13
WHEATLEY, RICHARD (Journal Staff)		
Gulf Sale 161 deemed another major success	10-7	40
Shell, Texaco, Aramco eye R&M alliance	10-14	29
Operators press E&D in Ecuador, keep close eye on new government	11-4	27
Gulf of Mexico action tightening worldwide offshore rig squeeze	11-25	24
Enjoying the ride	12-9	17
Hot Louisiana chalk play spawning more drilling, added facilities	12-23	21
WHITAKER, STEPHEN T. (IBEX Geological Consultants Inc.); and LEDBETTER, JOHN C. (Nyvatex Oil Corp.)		
Maquoketa paleotopography key to reservoirs in western Illinois	8-12	87
WHITLEY, S. CRAIG, GIST, RONALD L., OTTO, KEN W., and HAUN, RICK R. (Purvin & Gertz Inc.)		
WORLDWIDE GAS PROCESSING. Global gas processing will strengthen to meet expanding markets	7-1	55
WIEMERS, REGINAL, and ASTRELLA, LANCE (Environmental Equipment Co.)		
Closed loop drilling systems can eliminate reserve pit costs	5-27	62
WILKINSON, T. P. (Oiltools (Europe) Ltd.)		
New solids control system reduced oil on cuttings	4-8	47
WILLIAMS, BOB (Journal Staff)		
007: Oil's ally	1-22	13
Okies cleaning up	4-1-19	
Mission ridiculous	6-10	17
Colombian watersheds	7-15	13
Drugs, oil don't mix	9-30	19
Upstart LNG project	12-16	9
WILLIAMS, T. M., HSU, J. J. C., and PATTERSON, H. L. (Texaco Inc.)		
System developed to predict waxy crude's breakaway yield stress	12-16	35
WILLIAMSON, MICHELLE (Journal Staff)		
WORLDWIDE CONSTRUCTION. Refineries	4-8	53
WORLDWIDE CONSTRUCTION. Petrochemicals	4-8	68
WORLDWIDE CONSTRUCTION. Sulfur	4-8	84
WORLDWIDE CONSTRUCTION. Gas Processing	4-8	86
WORLDWIDE CONSTRUCTION. Pipeline	4-8	90
WORLDWIDE GAS PROCESSING. Survey	7-1	65
WORLDWIDE GAS PROCESSING. World sulfur poduction	7-1	110
WILSON, JAMES LEE, and BAKER, GEORGE (International Consultants)		
Mexico's basins could provide niches for various sized firms	11-18	53
WOLFE, MARK E., and MCCORMAC, MICHAEL P. (Ohio Division of Oil & Gas)		
Ohio 1995 oil and gas activity and exploration highlights	4-15	77
WOOD, JAMES R., ALLAN, J. R., PENNINGTON, WAYNE D. (Michigan Technological University); and Harrison, William B. III (Western Michigan University); and TAYLOR, ERIC, and TESTER, CRAIG J. (Cronus Development Corp.)		
MICHIGAN DUNDEE—1: Horizontal well taps bypassed Dundee oil in Crystal field, Mich.	10-21	60
MICHIGAN DUNDEE—2: Horizontal well success spurs more Devonian work in Michigan	10-28	86
WRIGHT, B. K., LAWLER, K. P., GUZMAN, C. E., and RAMASWAMY, M. (Shell Western Exploration & Production)		
APPLIED GEOPHYSICS. Depth maps from seismic velocities help Wilcox exploration	10-28	62
WU, DAHUA, PEIYAN, and HUANG, BOZONG (Chinese National Petroleum Corp.)		
Slag/mud mixtures improve cementing operations in China	12-23	95
WU, H. L. (Wu Flow Consultancy B.V.); VAN, SPRONSEN, G. (Shell International Exploration & Production B.V.); KLAUS, E. H. (BEB Erdgas & Erdol GmbH); and STEWART, D. M. (Shell Todd Oil Services Ltd.)		
By-pass pig passes test for two-phase pipelines	10-14	73
WU, TIANYUN (University of Petroleum)		
More accurate method devised for tank-bottom annular plate design	5-20	81
X		
XU, LIQING, BOULANGER, ALBERT, MEADOW, BILLY, NEAL, RANDALL, HE, WEI, and ANDERSON, ROGER N. (4 D Technology Inc.)		
INTEGRATING EARTH SCIENCE AND TECHNOLOGY. 4D seismic monitoring grows as production tool	5-20	41
Y		
YANG, YONG S. (Precision Tube Technology Inc.)		
Various factors affect coiled tubing limits	1-15	43
YANNIMARAS, DEMETRIOS V. (Amoco E&P Technology Group); HASSAN, DAVE (Amoco Canada Petroleum Co.); and FASSIHI, MOHAMMED REZA, and GILLHAM, TRAVIS H. (Amoco Production Co.)		
Field tests assess novel air-injection EOR processes	5-20	69
YERLETT, T. K., SZCZEPANSKI, R., and EDMONDS, B. (Infochem Computer Services Ltd.); and BROWN, N. P., and HAMILTON, T. A. P. (Offshore Safety Division, Health & Safety Executive)		
Condensate kicks pose additional problems for deep well control	6-17	31
YOON, SEONGKYU (Hyundai Petrochemical Co. Ltd.); and DASGUPTA, SURAJIT, and MIJARES, GERARDO (M. W. Kellogg Co.)		
Real-time optimization boosts capacity of Korean olefins plant	6-17	36
YURKIW, FRED J., and CHURCHER, P. L. (PanCanadian Petroleum Ltd.); and BIETZ, RON F., and BENNION, D. BRANT (Hycal Energy Research Ltd.)		
Properly designed underbalanced drilling fluids can limit formation damage	4-29	50
Z		
ZAIN, AHMAD BAZLEE MAT, INAYAT-HUSSAIN, ANIS A., and AYOB, MOHD SAPIHIE (Petronas Research & Scientific Services Sdn. Bhd.)		
Simulator predicts transient flow for Malaysian subsea pipeline	4-15	62
ZANGUINA, MAMADOU (Ministry of Mines & Energy); and BRUNETON, ALAIN, and GONNARD, ROBERT (Beicip-Franlab)		
Opportunities seen in three petroleum systems in Niger	5-6	126
ZHENGSONG, QIU, JIANYING, LI, and RUI, DING (University of Petroleum)		
Soluble-silicate mud additives inhibit unstable clays	4-1	66
ZINKE, ROBERT, and MORSE, JEROME G. (Colorado School of Mines)		
How radiometric anomalies relate to Colorado, Montana oil fields	11-11	96



IT'S WHAT'S BELOW THE SURFACE THAT COUNTS.
